

W7 – PAINT STRIPPER GENERAL USES

DESCRIPTION:

Formulated with very active solvents and special retention products, the “**PAINT STRIPPER**” is a pasty product appropriated for the removal (stripping) of old paints applied over wood or metal.

FEATURES:

- Easy to apply.
- Without Methylene Chloride.
- Strong stripping action over almost all kinds of paint.
- Doesn't drain, even on vertical surfaces.

SPECIFICATIONS:

- **Density**.....1,150 ± 0,10
- **Viscosity**.....76-102 ku (25°C)
- **Aspect**.....Pasty, whitish
- **Drying**.....± 5 minutes

RECOMMENDED USE:

The “**PAINT STRIPPER**” has one unique function: to allow the removal of old paints applied over iron or wood. It acts on the old paint making it blister from the support, facilitating its removal.

SURFACE PREPARATION:

The surfaces don't need of any preparation. The easier is the possibility of a contact between the “**PAINT STRIPPER**” and the paint surface, the higher will be the efficiency of the “stripping”.

APPLICATION:

Before to use mix energetically the product.
To apply with a paint-brush an uniform layer over the paint to strip.
To let it act for 5 to 10 minutes.
Right after, to remove the old paint with a spatula, and to repeat the operation in case the removal has not been completed.
Finally, to clean the surface with “**CELLULOSE DILUENT**”, in order to remove remains of the “**PAINT STRIPPER**”, preparing it then for the application of the new painting scheme.

DILUTION:

This product is supplied ready to use. However it accepts a dilution with “**CELLULOSE DILUENT**”.

- COVERAGE:** As an orientation: 3 m² of the surface stripped/liter.
- CLEAN-UP:** With "CELLULOSE DILUENT", followed right after with a water and soap cleaning.
- WARNING:**
- The "PAINT STRIPPER" contains very volatile solvents that can cause higher pressures than the normal inside the cans in which it is contained. **When opening the cans, to be careful and to avoid that the cover jumps with violence.**
 - In the case of a contact with the skin or the eyes, to wash with plenty of water and soap.
 - Not for domestic use.
 - To keep out of reach of children
 - When using it to wear gloves
- STORAGE AND PACKAGING:** Packages should be kept properly closed, in good environmental conditions of temperature and humidity, and spend the product on the chronological order of supply.
Use it, with preference, up to 2 years after its manufactured date, but it can also be used after this date, as long as a good homogenization of the product can be verified.
It is supplied in packages of 1lt and 5 liters.
